## Media FAQ

### Official app

The Collision app will help you discover, connect and chat with speakers, investors and attendees at Collision. The app allows you to connect with the right people and will help you maximize your time at the event. It will also be a place for you to view which talks and events are going on and build your schedule.

It can be downloaded on iOS and Android through the app store under the name "CollisionConf".

### Technical support

If you require any technical support during the event, please contact [info@collisionconf.com](mailto:info@collisionconf.com).

### Onsite wifi

There will be wifi throughout the venue. The media village will have its own dedicated wifi SSID. There will also be a number of hard wire cables at the work tables in the media village.

### Media page

The media page at [collisionconf.com/media](http://collisionconf.com/media) will be regularly updated throughout the event and we encourage you to visit it to ensure you get the most from Collision.

This page will feature news announcements, press releases from our event partners and from startups attending Collision, along with video and photography from on-stage sessions.

This is a one-stop shop for media at Collision to find news about the event and speakers, along with information about startups, photos of the event, schedules and any other details you may need.

We encourage you to use this to get the most of the event and find the best stories.

### Flickr

Live photos of the event are free to use and available through our media portal and [www.flickr.com/photos/collisionconf/](http://www.flickr.com/photos/collisionconf/).

### Interview requests

If you would like to interview any of the speakers during Collision, please email [media@collisionconf.com](mailto:media@collisionconf.com) or talk to any of the Collision media team during the event. The team will do their best to link you up with requested speakers. You can also contact individuals directly via the chat function in the event app.

### Interview booths

If you would like to reserve an interview booth during the event, please ask the Collision media team on the ground or email [media@collisionconf.com](mailto:media@collisionconf.com).

### Schedule

The schedule is available through the Collision app and on the Collision website.

### News

Please keep an eye on the Collision media page for news about speakers, breaking stories on the day, and general event announcements.

### Media village

This is a hub where media can work and spend downtime. It's an exclusive area for media and speakers with food, desks, power cables and an area to relax. There will also be separate interview spaces near the speakers lounge, which can be reserved by media and speakers.

### Reserved media desks at stages

Each of the Collision stages will have dedicated hot desks at the front so journalists can file live copy. These desks are allocated on a first-come, first-served basis.

### Food and drink

Food and beverages will be provided to media in the media village.

### Night Summit

Collision isn't a 9-5 kind of conference. The networking truly begins after the stages wind down and the speakers, investors, startups and other attendees make their way to the local bars and clubs for our NOLA Pub Crawls and Night Summit.

### PITCH

PITCH is our pitching competition, which was named as one of the best startup competitions in the world by Forbes. It is open to any Collision startup that has received under \$3 million in funding.

Our top startups will get to present in front of a judging panel of distinguished investors, influential media, and thousands of attendees. They'll battle it out across three days for a chance to present on Center Stage and be crowned winner of PITCH at Collision 2018.

The opening rounds of PITCH will take place on May 1 and 2. The PITCH final takes place on Center Stage on May 3.

### Social media

The hashtag is #CollisionConf. Join the conversation. Be sure to follow us on Twitter, Facebook and YouTube.
